- 3. **Residence.** The Board Engineer need not be a resident of the City.

**Procurement of Professional Services– Consultant Selection (Required by the NJ DOT Division of Local Aid and Economic Development for Federal Aid Highway Projects)**

Consultant Services funded in whole or in part with FAHP funds must be procured and administered in accordance with the requirements of the Common Grant Rule, 49 CFR 18. In addition, contracts for engineering and design related services directly related to a construction project must also comply with the requirements of 23 U.S.C. 112 and 23 CFR 172.

Any LPA using Federal-aid funds for engineering and design related consultant services must have written procurement policies and procedures in accordance with 23 CFR 172.9. The written policies and procedures must address:

- Preparation of the consultant scope of work and cost estimate
- Solicitation, evaluation, ranking, and consultant selection
- Negotiation of reimbursement costs
- Monitoring of the consultant's work
- Consultant errors and omissions

Title 23 CFR 172 allows three procurement methods to be used to hire a consultant: competitive negotiation, small purchases and noncompetitive procurement. Competitive negotiation procedures generally apply and are commonly referred to as "qualification based selections". Qualification based selection requirements are defined by the Brooks Act, 40 U.S.C, and can be broken down into three steps:

1. Issuing a request for proposal, or RFP.
2. Selecting a consultant based on qualifications.

3. Negotiating a fair and reasonable cost and contract terms with the selected consultant.

#### Request for Proposal

1. The LPA must have a written procedure detailing their consultant selection process for federal-aid projects. This procedure must be approved by NJDOT for compliance to federal requirements.
2. The RFP must include a detailed scope of work, qualifications required, responsibilities, and deliverables.
3. The RFP must include an estimated schedule for the performance and delivery of the services.
4. The RFP must stipulate method of contract payment.
5. The RFP must clearly define the LPA's evaluation criteria used to assess and rate the firms including the scoring rate of each criterion.
6. The qualification based evaluation criteria may take into consideration qualifications of staff, prior similar work experience, past performance, workload capacity, and technical project approach.
7. In-state or local hiring preferences are prohibited.
8. Consideration of price or any element of cost in the evaluation is prohibited in the evaluation, ranking, and selection of the most qualified consultant.
9. The RFP must be advertised for a sufficient amount of time to solicit as many proposals from as many qualified consultants as possible.
10. The RFP process must allow fair and open competition by providing opportunities for in-State and out-of-State consultants.

#### Selection

1. All submitted proposals must be evaluated and ranked according to the evaluation criteria and scoring process outlined in the RFP.
2. The 3 most qualified consultants should be listed in order of preference.

#### Negotiations

1. The LPA must prepare an independent cost estimate that reflects the advertised scope of work to be used as the basis of negotiations.
2. Negotiation of costs and contract terms are conducted with the number-one ranked qualified consultant.
3. Only the tasks included in the RFP can be incorporated in the contract.
4. NJDOT is required to ensure the consultant contract is compliant with FAR cost principals when using federal-aid funds.
  - a. Allowable costs include those directly associated with the specific contract as well as overhead costs, also known as their indirect cost rate.

- b. Only NJDOT approved overhead rates are used. Consultants that do not have approved overhead rates must be approved in accordance with NJDOT Procurement policies and procedures.
  - c. The approved overhead rate must be used for the purpose of estimating, negotiating, and making payment on the contract.
- 5. The methods of payment that shall be used are: lump sum, cost plus fixed fee, cost per unit of work or specific rates of compensation.
  - a. Lump Sum: The lump sum method shall not be used to compensate a consultant for construction engineering and inspection services except when the agency has established the extent, scope, complexity, character and duration of the work to be required to a degree that a fair and reasonable compensation including fixed fee can be determined.
  - b. Cost plus fixed fee: This method of payment reimburses the consultant for its direct and indirect costs (salary, overhead, direct expenses) in addition to a negotiated amount as a fixed fee. This type of agreement is typically used for projects where the level of effort is unknown or the final objectives cannot be fully identified or precisely defined.
  - c. Cost per unit of work: This method is used when the cost per unit can be established with reasonable accuracy at the time of procurement, but the extent of the work is undefined. Payment is made based on a preset amount per unit of work performed.
  - d. Specific rates of compensation: this method of payment reimburses the consultant for services based on direct labor hours at specific fixed hourly rates plus direct expenses/costs subject to an agreement maximum amount. The specific rates of compensation method should only be used when it is not possible to estimate the extent or duration of the work or to estimate costs with any reasonable degree of accuracy at the time of procurement.
- 6. The cost plus a percentage of cost and percentage of construction cost method of compensation shall not be used.
