### NARRATIVE

#### **Speeding Complaint - Delaware Street**

#### ***Resident Complaints***

A resident reported vehicles speeding on Delaware Street. The complainant requested a speed study be conducted in the area.

On Friday, July 25, 2025, I deployed the covert Jamar Radar Recorder in the area of Delaware Street and North Columbia Street. The Jamar Radar Recorder was affixed to a nearby telephone pole and recorded both eastbound and westbound traffic on Delaware Street. The accuracy of the radar recorder was verified by comparing live speeds with readings from a certified radar unit in vehicle #305 which matched the data collected by the JAMAR recorder. The Radar Recorder was deployed for a period of ten (10) days and recorded 87,396 vehicles.

I then downloaded the data from the recorder and produced a Speed Enforcement Evaluator Sheet, along with a Data Summary. The Speed Enforcement Evaluator was calibrated for an Enforcement Tolerance of 6 MPH, a vehicle speed of 32 MPH and above for demonstrational purposes. I also produced a Speed Enforcement Evaluator with an Enforcement Tolerance set at 10 MPH or a vehicle speed of 36 MPH and above. The following are the results of the data:

#### **Speed Enforcement Evaluator (32 MPH and above):**

The total percentage of Enforceable Violations (Vehicles traveling over 32 MPH) was found to be LOW with 41.3% of vehicles above the limit (32MPH).

Continuation

Incident Report Number  
25-029731

Incident Location:  
Delaware ST/N Columbia ST

Incident Date:  
08/06/2025

## Speed Enforcement Evaluator (36 MPH and above) :

The total percentage of Enforceable Violations (Vehicles traveling over 36 MPH) was found to be LOW with 11.3% of vehicles above the limit (36MPH).

I have attached both Speed Enforcement Evaluator Sheets to this report for reference.

I then produced the Data Summary for the Traffic Study. The combined speed statistics (for eastbound and westbound traffic) revealed that the Average Mean Speed of vehicles was 31 MPH. Of the 87,396 vehicles, 1,287 were traveling in excess of 40 MPH, which equates to 1.4% of traffic. The 85<sup>th</sup> percentile speed is 34 MPH, meaning that 85% of traffic is traveling at or below 34 MPH.

It was found that there is a mild speeding issue on Delaware Street, which 11% of traffic above 36 MPH, and the occasional vehicle traveling above 40 MPH. There were 38 vehicles traveling above 50 MPH.

The JAMAR determined the best times for enforcement to be in the afternoon hours, between 3:00 PM and 8:00 PM. This information was disseminated to patrol for added enforcement in the area.

It should be noted that the last traffic study was conducted in June 2022. Both the 85th percentile speed and average speed are nearly identical on both studies.
